Dear Sir or Madam

I am very pleased for having chance to apply CV for the position of Computer Teacher at your best school. I am very interested in this position because it related to my skills and experiences.

I was graduated a bachelor degree of Information Technology in Panha Chiet University (PCU). As you can see in my resume, I was successfully completed a pedagogy training at National Institute of Education (NIE) in a major of Information Technology. I'm currently working as a computer teacher at Tepranam High School and my task is to teach the students from grade 10 to 12. For my fourth year at university, I have many experiences with Web Development, Designing, and Networking Administrator. Moreover, I have also experienced in teaching Computer Courses at Enfants d'Asie Aspeca. I am sure that these experiences is essential relevant to the applying position.

Furthermore, my knowledge of computer applications (Ms. Office, Internet, and E-mail), interpersonal skill and communication, and my experiences of teaching are the other qualified advantages that I have for holding this position. In addition, I created many projects rated to Building Websites (Portfolio, Business, E-Commerce, Entertainments, News...), and also related to computer administration (manage and control computers, clients, problems solving with users, repairing and maintaining) for long times with Windows Server. I am always punctual for study and especially for work because I am the person who clearly knows myself and obey my duties. I am confident with my abilities in filling this position and response for all given duties.

I have enclosed my curriculum vitae. As a proof for additional details that you need. And Please let me share this opportunity to your company along with an interesting interview. I assure that I will do my best for a strong value in your company.

Thanks for your best consideration and a great teaching entry duly of times for reading.

I am pleased looking forward to hearing from you soon.

Yours sincerely,

Seavy leang
